

THE AIOS WORKFORCE PILOT · 60-90 DAYS

An AI workforce for your calls, leads and admin. Proven on your own data.

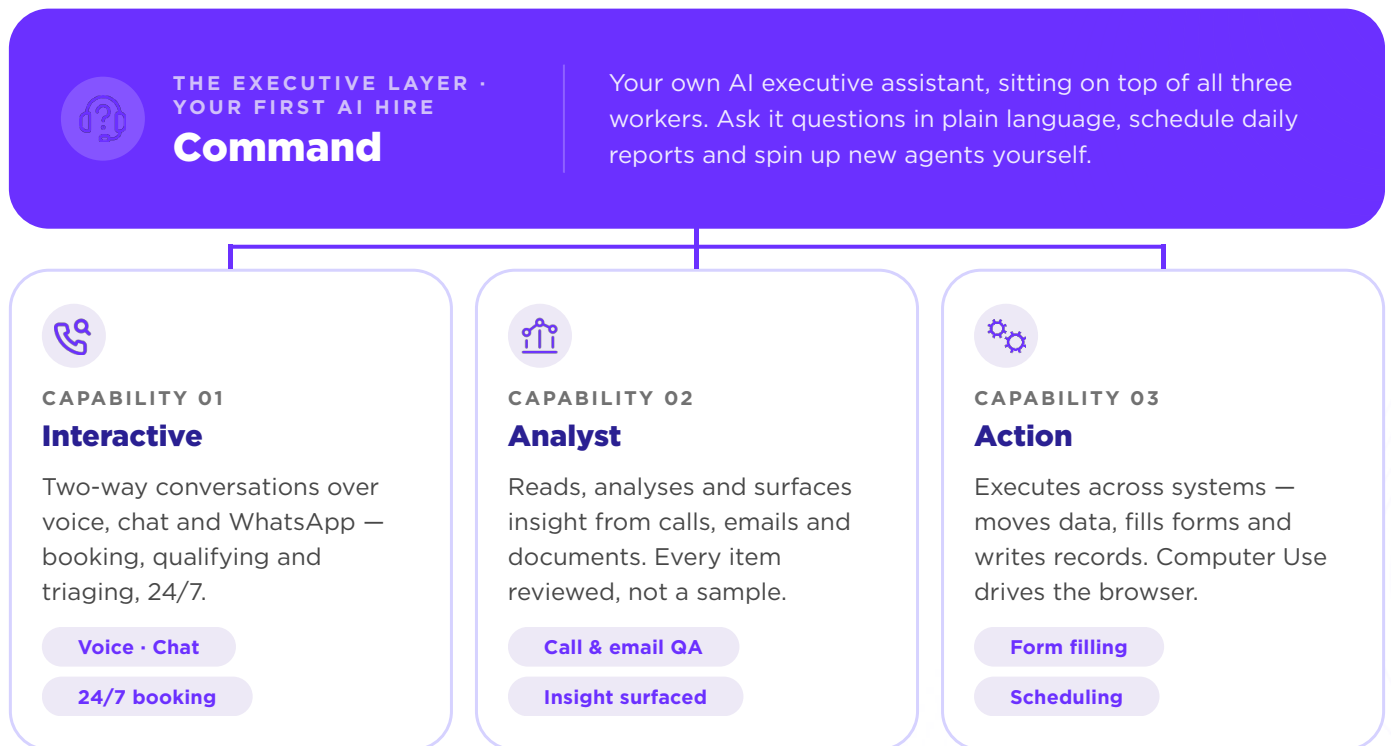

A low-risk way to put AI to work and find out exactly what an AI workforce is worth to your business, across revenue, capacity, experience and beyond, in a 60 to 90 day pilot for less than one full-time hire.

FIVE PILLARS OF VALUE · HOW AN AI WORKFORCE DRIVES IMPACT

<p>Revenue</p> <p>Top-line growth: close rates, reactivation, cross-sell and churn.</p>	<p>Capacity</p> <p>Lower cost: support deflection, back-office and call QA automation.</p>	<p>Experience</p> <p>Quality and consistency: faster response, proactive customer success.</p>	<p>Executive intelligence</p> <p>See what leadership can't: performer ID, friction and sentiment signals.</p>	<p>External intelligence</p> <p>Monitor the outside: competitor, market and brand signals.</p>

INSIDE THE WORKFORCE

COMMAND IS THE EXECUTIVE LAYER THAT SITS ON TOP OF THREE WORKFORCE TYPES

THE NUMBERS · REAL RESULTS FROM LIVE CLIENT DEPLOYMENTS

DENTAL · ANALYST

Reviewed every inbound call and email across a multi-site dental group to catch missed bookings and unbilled treatment.

£570k+ in missed revenue surfaced in 4 months

INSURANCE · ANALYST

QA'd every inbound call live — scoring compliance, flagging risk and coaching agents, not just a sample.

68,404 calls reviewed, ~17 FTE-years of work

PROPERTY · INTERACTIVE

A voice agent answered and qualified inbound enquiries at volume, 24/7, passing on only the warm ones.

1,800 calls a day at peak, 7.9% transferred

DOMICILIARY CARE · ACTION

Rebuilt the daily visit schedule and ran out-of-hours triage so carers reached clients on time.

28% fewer late visits, 62% less on-call load

SECURITY · ANALYST

Read every guarding report to surface cross-sell openings and raise risks before they escalated.

660 cross-sell openings, 1,777 risk flags

RECRUITMENT · ACTION

Sourced, enriched and wrote candidate and client leads straight into the CRM — overnight, hands-off.

~60 enriched leads a day, fully hands-off

Every figure is a real outcome from a live AIOS deployment. PCU · Productive Capacity Unit: one PCU is more than one FTE of capacity, at a fraction of the cost.

WHO WE WORK WITH · THE SECTORS WE SERVE

Healthcare

Dental, GP, vet, pharmacy, home care

Reception cover, patient recall, appointment coordination and claim handling, on the phones and inbox.

Insurance

Brokers, MGAs, loss adjusters

Claims intake, renewal outreach and live call QA — every call reviewed, not a sample.

Field services

Facilities, HVAC, trades, property

Helpdesk triage, out-of-hours voice cover and job scheduling across the working day.

Multi-location retail

Chains, franchises, multi-site brands

Customer enquiries, order and booking handling, reviews and multi-site reporting.

ALSO LIVE IN Recruitment, Property, Logistics, Energy, Wealth, Events, Cleaning and Security.

A WORKER ON YOUR SYSTEMS · 900+ INTEGRATIONS, OR ANY SYSTEM WITH AN API

AI workers read, click and type across your CRM, inbox, scheduling and records, just like your team. They connect to 900+ tools out of the box, and to any system with an API.

Secure by design. Your data stays in your own systems, access is permissioned, and a human stays in the loop wherever it matters.

THIS IS THE PILOT · 60 TO 90 DAYS, FIXED FEE

The pilot is your test drive.

Pick the use cases that matter most to you, prove what an AI workforce is worth on your own data, then scale what works. You move first, while your competitors are still in meetings about AI.

HOW THE PILOT RUNS · WEEKS, NOT MONTHS

STEP 01

Connect

We connect to your phones, inbox and CRM, read-only to start.

STEP 02

See

Agents watch what is really happening and set your baseline.

STEP 03

Deploy

We put agents on the use cases that matter most.

STEP 04

Measure

You see the before and after, against your own numbers.

THE PILOT · WHAT'S INCLUDED

What the pilot includes

- Three use cases scoped, built and run on your own data
- A dedicated solutions pod, a delivery lead and engineer who build, run and refine your agents
- Command set up and connected to your systems
- Training and certification for your team
- Version 1 live within weeks, then iterated against the baseline

STANDARD PILOT FEE

~~£15,000~~**£12,500**

fixed, one-off · 60 to 90 days, no ongoing commitment.

SAVE £2,500 · CURRENT OFFER

After the pilot: keep the workers that prove their value on a simple monthly plan that scales as you grow.

THE NEXT STEP · WE'RE YOUR PARTNERS

**Talk us through your business.
We'll spot what to hand off first.**
